JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Special measures with regard to departures from Djeddah.

I. All arrivals from Djeddah for any destination on the Ottoman coast of the Red Sea shall be subject to five days' quarantine at Abou Saad. Persons and merchandise leaving Djeddah for the interior shall undergo similar observation at some designated station.

II. All pilgrims returning from Mecca shall be subject before entering Djeddah to medical visit. Any person attacked with plague shall be held there at the lazaretto.

III. Second medical visit shall be made to pilgrims before embarkation. Suspect or verified cases shall be held and isolated.

IV. The same measures shall be carried out at the gate of Mecca and at Arafat and Mouna.

V. Pilgrims shall leave Mecca by caravan. The second caravan shall not leave until the first has started.

VI. The caravan leaving Mecca shall stop outside the walls of Djeddah, where it shall be subject to the first medical visit.

VII. A supplementary sanitary personnel from Camaran shall join that of Djeddah.

VIII. Sanitation of the streets and houses shall be seriously undertaken. Destruction of rats and house disinfection are insisted on.

Plague at Djeddah.

The following is from a report of the delegate of the quarantine council at Egypt to the Hedjaz under date of January 13:

Measures have not been taken to combat the plague outbreak at Djeddah. The crowd is immense and the sanitary conditions are defective. Plague cases are not reported before death and plague patients are not isolated. At the entrance to Mecca only medical visit is made.
